

Patricia Parker

Web Developer and Designer

pk.patricia@gmail.com

Summary

Seeking Web Development and Design work which utilizes my education in Web Design, HTML, CSS, Javascript, JQuery, Java, Android, Ruby on Rails, WordPress, and Drupal.

I have completed a Full-Time programming boot camp at Tech Talent South and Web Design coursework at Richland College, DePaul University, and General Assembly.

I am currently pursuing my masters in information technology at the Illinois Institute of Technology with an emphasis in Web Design and Application Development.

Experience

Web Developer

April 2016 - Present

Data Entry Associate at Collabera

December 2014 - July 2015 (7 months)

Input and transposed technician repair notes form Diebold systems to Bank of America systems.

Technical Support Associate at Telvista Inc.

January 2014 - May 2014 (4 months)

Helped customers set up Actiontec routers in their home or business.

Solved wireless connectivity problems.

Helped customers use video features and set up TV equipment.

Isolated customer phone problems and helped customers use phone features.

Dialer Collector at Chase

January 2012 - November 2013 (1 year 10 months)

Determined reasons for non-payment.

Negotiated payment arrangements using established procedures and computer applications.

Advised customers of the possible consequences of not meeting obligations.

Mortgage Escrow Customer Service Specialist at Bank of America

August 2009 - May 2011 (1 year 9 months)

Called taxing authorities and performed internet searches for tax amounts due both current and delinquent.

Performed routine mortgage account-related transactions for escrow including updates and analysis.

Called insurance companies for insurance policy information, updated in system and issued out premium payments.

Collections Representative at Chrysler Financial

October 2008 - August 2009 (10 months)

Advised customers on available payment alternatives, negotiated payment plans, and responded to customer inquiries.

Used communication and analytical skills to provide mutually beneficial problem resolution.
